Item 2.02 Results of Operations and Financial Condition

\_\_\_\_\_

On May 9, 2006, General Communication, Inc. (GCI) issued a press release announcing earnings for the three months ended March 31, 2006. A copy of the press release is attached as Exhibit 99.1.

The information in this Form 8-K and the Exhibit attached hereto shall not be deemed "filed" for purposes of Section 18 of the Securities Act of 1934, nor shall it be deemed incorporated by reference in any filing under the Securities Act of 1933, except as shall be expressly set forth by specific reference in such filing.

The earnings release attached as Exhibit 99.1 discloses the non-GAAP financial measure of EBITDA (Earnings Before Interest, Taxes, Depreciation and Amortization). EBITDA has been reconciled to the closely related GAAP financial measure, Net Income, within the earnings release.

EBITDA is the sum of Net Income, Interest Expense, Amortization of Loan and Senior Notes Fees, Interest Income, Income Tax Expense, and Depreciation and Amortization. EBITDA is not presented as an alternative measure of net income, operating income or cash flow from operations, as determined in accordance with accounting principles generally accepted in the United States of America. GCI's management uses EBITDA to evaluate the operating performance of its business, and as a measure of performance for incentive compensation purposes. GCI believes EBITDA is a measure used as an analytical indicator of income generated to service debt and fund capital expenditures. In addition, multiples of current or projected EBITDA are used to estimate current or prospective enterprise value. EBITDA does not give effect to cash used for debt service requirements, and thus does not reflect funds available for investment or other discretionary uses. EBITDA as presented herein may not be comparable to similarly titled measures reported by other companies.

FOR IMMEDIATE RELEASE

GCI REPORTS FIRST QUARTER 2006 FINANCIAL RESULTS

- o Consolidated revenue of \$112.8 million
- o Net income of \$3.3 million or \$0.06 per diluted share
- o EBITDA of \$37.1 million

ANCHORAGE, AK -- GCI (NASDAQ:GNCMA) today reported net income of \$3.3 million, or earnings per diluted share of \$0.06, for the first quarter of 2006. The company's first quarter net income compares to income of \$4.7 million, or earnings per diluted share of \$0.08 in the same period of 2005.

GCI's first quarter 2006 revenues totaled \$112.8 million, an increase of 5.9 percent over the first quarter of 2005. Revenue increases in GCI's Consumer, Network Access and Commercial segments were partially offset by decreased revenue in the Managed Broadband segment.

First quarter 2006 earnings before interest, taxes, depreciation, amortization and non-cash share based compensation expense (EBITDA) totaled \$37.1 million. EBITDA increased \$2.6 million or 7.5 percent from the first quarter of 2005. First quarter 2005 EBITDA totaled \$34.5 million including the MCI credit utilized of \$0.9 million.

Sequentially, revenues for the company increased slightly over fourth quarter 2005 revenues of \$112.1 million. As expected, first quarter EBITDA of \$37.1 million decreased from EBITDA of \$42.9 million in the fourth quarter of 2005. EBITDA for the fourth quarter of 2005 included a \$7.5 million net benefit from a claims settlement.

For the first quarter of 2006, GCI met its revenue and EBITDA guidance. The company expected revenues of approximately \$112 million to \$114 million, and EBITDA of approximately \$37 million, excluding non-cash stock based compensation expense. GCI reaffirms its guidance for revenues of \$450 to \$460 million and EBITDA of \$150 million to \$154 million for the year 2006. Second quarter revenues are expected to range between \$112 million to \$114 million and EBITDA is expected to increase from the first quarter.

"First quarter results are in line with expectations and we expect that the next three quarters will each be stronger than the first as we continue to successfully grow our business", said Ron Duncan, GCI President. "This is the first report in our new format which reflects our new organizational focus on customers rather than products. We believe this change will enhance the quality of our customer's experience and allow us to more efficiently manage technological and product convergence."

# Highlights

- O Consumer revenues increased to \$42.7 million, an increase of 6.2 percent over the prior year and increased 1.9 percent from the fourth quarter of 2005. The increases were due primarily to an increase in video and wireless sales.
- o Network Access revenues increased to \$37.8 million, an increase of 10.9 percent over the prior year and increased 1.3 percent over the fourth quarter of 2005. The increase in revenues is due primarily to a 27.1 percent increase in long distance minutes carried on GCI's network for other common carriers for the first quarter of 2006 as compared to the first quarter of 2005. Minutes for the first quarter of 2006 increased 5.3 percent from the fourth quarter of 2005. The effect on revenues of increases in minutes for the first quarter of 2006 were partially offset by rate decreases.
- o Commercial revenues increased 2.8 percent over the prior year and decreased 2.6 percent from the fourth quarter of 2005. Commercial data subscriber increases primarily contributed to the revenue increase over the prior year.
- o GCI has provisioned 25,100 consumer and commercial lines on its Digital Local Phone Service (DLPS) facilities at the end of the first quarter of 2006, an increase of 3,200 lines over the fourth quarter of 2005. GCI's goal is to increase the total lines provided on its own facilities by 20,000 during 2006.

- o GCI local access lines remained relatively unchanged for the quarter after excluding approximately 500 Internet Service Provider dial-up lines that were turned down during the first quarter of 2006. Consumer, Network Access and Commercial local access lines totaled 112,500 at the end of the first quarter of 2006 representing an estimated 26 percent share of the total access lines market in Alaska.
- o GCI has 80,900 consumer and commercial cable modem access customers at the end of the first quarter of 2006, an increase of 3,500 over the 77,400 cable modem customers at year-end 2005. GCI customers continue to migrate from dial up access service to cable modem. Average monthly revenue per cable modem totaled \$31.22 for the first quarter of 2006.
- o Through April 30, 2006 GCI repurchased 893,142 shares of its Class A Common shares at a cost of approximately \$10.1 million or \$11.36 per share. Depending on market conditions and the availability of free cash flows, the company is authorized to purchase an additional \$12.9 million of Class A shares by the end of the second quarter of 2006.

### Consumer

Total consumer revenues increased 6.2 percent to \$42.7 million as compared to \$40.2 million in the first quarter of 2005 and increased 1.9 percent from the fourth quarter of 2005. The increase in revenue over the prior year is due primarily to an increase in video and wireless sales resulting from an increase in subscribers and an increase in subscribers purchasing digital services.

Consumer voice revenues decreased 5.7 percent from the prior year primarily due to a decrease in volume of long distance usage. Consumer local access lines in service are relatively unchanged from the prior year and from the fourth quarter of 2005. GCI converted 2,800 consumer access lines to its own facilities during the first quarter.

Consumer video revenue increased 4.8 percent over the prior year and increased 1.9 percent over the fourth quarter of 2005. The increase in revenue is due to improving rates in certain markets and increases in video subscribers purchasing digital service and renting high definition / digital video recorder converters.

Consumer data revenues increased 12.9 percent over the prior year and 9.4 percent over the fourth quarter of 2005. The increase in consumer data revenues is due to an increase in cable modem customers. GCI added 10,700 consumer cable modem customers over the prior year and 3,200 customers during the first quarter of 2006.

Consumer wireless revenues increased substantially during the first quarter of 2006. The increase in revenue is due in part to a new GCI packaged offering that features Motorola's new Razr phone at a significant value to the consumer.

### Network Access

Network access revenues increased 10.9 percent to \$37.8 million as compared to 34.1 million in the first quarter of 2005 and increased 1.3 percent from the fourth quarter of 2005.

Voice revenues increased 16.7 percent over the prior year and increased 2.1 percent from the fourth quarter of 2005. Network access minutes increased 27.1 percent to 288.0 million minutes for the first quarter of 2006 as compared to the first quarter of 2005. Minutes for the first quarter of 2006 increased 5.3 percent from the fourth quarter of 2005. The effect on revenues of increases in minutes for the first quarter of 2006 were partially offset by rate decreases.

Data revenues were relatively unchanged from the prior year and from the fourth quarter of 2005.

# Commercial

Commercial revenues increased 2.8 percent to \$26.1 million as compared to \$25.4 million in the first quarter of 2005 and decreased 2.6 percent from the fourth quarter of 2005.

Increases in video, data and wireless revenues were partially offset by a decrease in voice revenues due primarily to declining rates per minute when compared to the first quarter of 2005. Commercial revenues decreased from the fourth quarter of 2005 due to a decrease in managed services revenues.

 $\,$  GCI converted 400 commercial local access lines to its own facilities during the first quarter.

Basic commercial video customers increased by 1,300 subscribers from the prior year and increased by 1,000 subscribers from the fourth quarter of 2005. Commercial video customers are primarily hotel video customers.

### Managed Broadband

Managed broadband revenues totaled \$6.2 million in the first quarter of

2006, a decrease of 8.8 percent from the first quarter of 2005 and an increase of 3.3 percent over the fourth quarter of 2005. The decrease from the prior year quarter is due to fewer multi-site SchoolAccess customers and a decrease in rates charged for certain services provided to rural health customers. The decrease in multi-site customers was off-set by an increase in single-site SchoolAccess customers which generate less revenue.

### Other Items

Total selling, general and administrative expenses (SG&A) increased 6.7 percent to \$39.7 million as compared to \$37.2 million in the first quarter of 2005 and decreased 2.2 percent from the fourth quarter of 2005. The increase was due primarily to an increase in medical claims, information technology costs and share-based compensation expense due to the adoption of a new accounting rule on January 1, 2006. SG&A expenses are recorded by segment using a combination of direct charges and an allocation based on prior year gross margins by segment.

During the first quarter of 2006 GCI's capital expenditures totaled

\$14.9 million as compared to \$15.2 million in the fourth quarter of 2005.

GCI will hold a conference call to discuss the quarter's results on Wednesday, May 10, 2006 beginning at 2 p.m. (Eastern). To access the briefing on May 10, dial 888-603-9217 (International callers should dial 415-228-4584.) and identify your call as "GCI." In addition to the conference call, GCI will make available net conferencing. To access the call via net conference, log on to www.gci.com and follow the instructions. A replay of the call will be available for 72-hours by dialing 866-454-2100, access code 7461 (International callers should dial 203-369-1240.)

GCI is the largest telecommunications company in Alaska. A pioneer in bundled services, GCI provides local, wireless, and long distance telephone, cable television, Internet and data communication services throughout Alaska. More information about the company can be found at www.gci.com.

The foregoing contains forward-looking statements regarding the company's expected results that are based on management's expectations as well as on a number of assumptions concerning future events. Actual results might differ materially from those projected in the forward looking statements due to uncertainties and other factors, many of which are outside GCI's control. Additional information concerning factors that could cause actual results to differ materially from those in the forward looking statements is contained in GCI's cautionary statement sections of Form 10-K and 10-Q filed with the Securities and Exchange Commission.

### </TABLE>

#### Notes

- (1)  ${\tt EBITDA}$  (as defined in Note 2 below) before deducting share-based compensation expense.
- EBITDA (Earnings Before Interest, Taxes, Depreciation and Amortization) is the sum of Net Income, Interest Expense, Amortization of Loan and Senior Notes Fees, Interest Income, Income Tax Expense, and Depreciation and Amortization Expense. EBITDA is not presented as an alternative measure of net income, operating income or cash flow from operations, as determined in accordance with accounting principles generally accepted in the  ${\tt United}$ States of America. GCI's management uses EBITDA to evaluate the operating performance of its business, and as a measure of performance for incentive compensation purposes. GCI believes EBITDA is a measure used as an analytical indicator of income generated to service debt and fund capital expenditures. In addition, multiples of current or projected EBITDA are used to estimate current or prospective enterprise value. EBITDA does not give effect to cash used for debt service requirements, and thus does not reflect funds available for investment or other discretionary uses. EBITDA as presented herein may not be comparable to similarly titled measures reported by other companies.
