Item 4.02(a) Non-Reliance of Previously Issued Financial Statements or a Related Audit Report or Completed Internal Review

Explanatory Note

General Communication, Inc. (the "Company") previously filed a Form 8-K on November 6, 2008 that contained preliminary information in Item 4.02(a) of such Form 8-K regarding the amount deprecation expense was understated for the first and second quarters of 2008. The Company filed an Amendment No. 1 to such Form 8-K on November 13, 2008 to add additional information to disclose the effect of the restatement on our balance sheets as of March 31 and June 30, 2008 as well the impact on net income and earnings per share for the three months ended March 31, 2008 and the three and six months ended June 30, 2008, and statement of cash flows for the three and six months ended March 31 and June 30, 2008, respectively.

This Amendment No. 2 to such Form 8-K/A Amendment No. 1 amends and restates the information contained in such Form 8-K/A Amendment No. 1 Item 4.02(a). Specifically, this Form 8-K/A Amendment No. 2 corrects income tax expense for the three months ended March 31, 2008 and June 30, 2008, resulting in a \$1.1 million decrease in income tax expense to \$1.4 million for the three months ended March 31, 2008, and a \$1.1 million increase in income tax expense to \$1.8 million for the three months ended June 30, 2008. The income tax expense for the six months ended June 30, 2008, is unchanged. While the company believes that the financial information included in this Form 8-K/A Amendment No. 2 is materially correct, the Company's auditors have not yet concluded all aspects of their review of our financial statements. Accordingly, the financial information included herein should be considered preliminary and may be subject to change following the conclusion of the review. The information in Items 2.02 and 9.01 included in our Form 8-K filed on November 6, 2008 was preliminary and, therefore, will not be updated in this Form 8-K/A Amendment No. 2.

On November 5, 2008, management of the Company, after discussions with the Audit Committee of the Board of Directors of the Company and the Company's independent registered public accounting firm, KPMG LLP, determined that it was necessary to restate the Company's consolidated financial statements for the quarters ended March 31, 2008 and June 30, 2008 in order to correct the error in such financial statements described below. Accordingly, the Company's consolidated interim financial statements previously filed for those periods should no longer be relied upon.

In late December 2007, a subsidiary of the Company, Alaska DigiTel, LLC ("Alaska DigiTel"), committed to a substantial upgrade of its wireless network during 2008 and expected to decommission certain assets at or near the end of 2008. As a result of this decision the estimated useful life of these assets changed, and the net book value at the date the decision was determined should have been depreciated over the remaining period the assets were expected to be used. The Company has recently determined that Alaska DigiTel's depreciation expense was understated by \$4.5 million and \$4.0 million in the first and second quarters of 2008, respectively.

In light of the disclosure provided in this report, we have evaluated our internal control over financial reporting at Alaska DigiTel, which was excluded from our most recent annual evaluation of internal control over financial reporting, and have concluded that it does not include activities adequate to timely identify changes in financial reporting risks, monitor the continued effectiveness of controls, and does not include staff with adequate technical expertise to ensure that policies and procedures necessary for reliable interim and annual financial statements are selected and applied. These control deficiencies in our Alaska DigiTel business represent material weaknesses in our internal control over financial reporting and lead to the failure to timely identify and respond to triggering events which necessitated a change in useful life of depreciable assets to ensure reporting in accordance with GAAP. We are currently assessing a remediation plan for these material weaknesses.

The Company intends to provide all restated financial information referred to in this Item 4.02(a), including explanatory information, in an amendment to its Quarterly Report on Form 10-Q for the fiscal quarters ended March 31, 2008 and June 30, 2008.

The expected impact of the restatement follows (amounts in thousands, except per share amounts):

	Three months ended March 31, 2008
